

Annual report English 5th grade

Another year is over and we are finished with 5th grade English. It was a very great year with our English teacher Mrs. Ryser. We learned a lot. We also usually wrote a test for each unit. English is an important language that will be very usefule in the future. My favorite unit was Life in the desert. It was a very exciting topic, you learned a lot about animals, about life and much more. There is a story for evry topic, but grammar is also part of it. In this unit we learned about the Sahara desert. In Corona Lockdown we also got homework through our app teams with whom we worked during the Corona crisis. Mrs. Ryser is very nice and almost never gave us written Homework, some of our class were very happy about it. Sometimes, however, it could become quite severe. She always warned us about a test and always gave us the learning goals. It was just a very great year!

ENGLISH

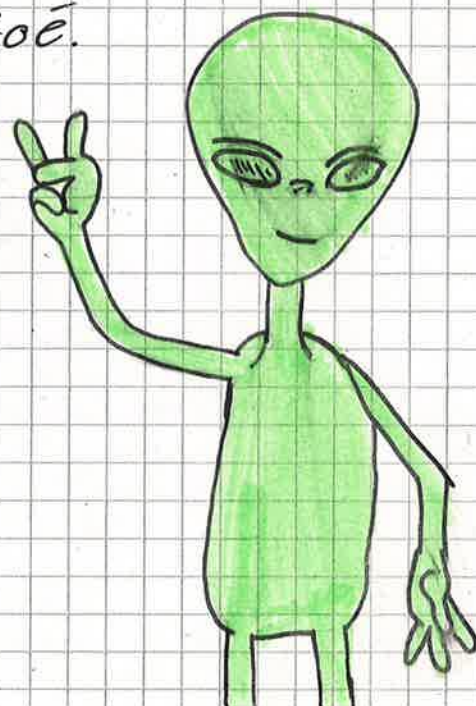

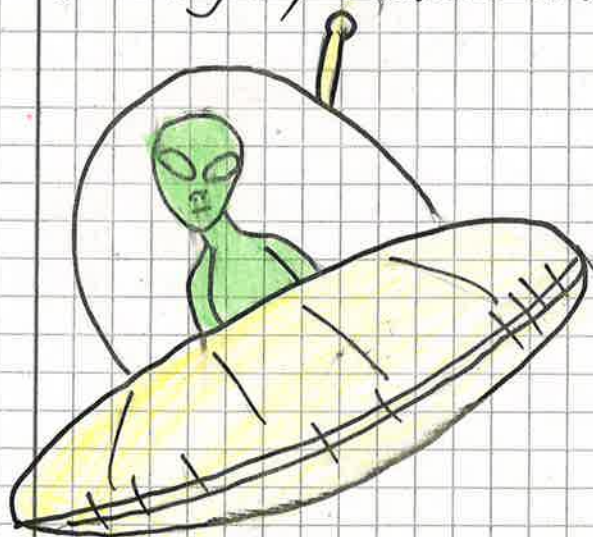

29.6.2020

In the Fifth grade we had English with Mrs. Ryser. In this year we had a lot of Units.

My favorite Unit was the last, called Planet Zarg. This Unit was about Aliens. In the class we sing a song about it.

It was cool to go through this chapter. But in this year we learned also a lot of other Units. And that's how we got to know a lot new words.

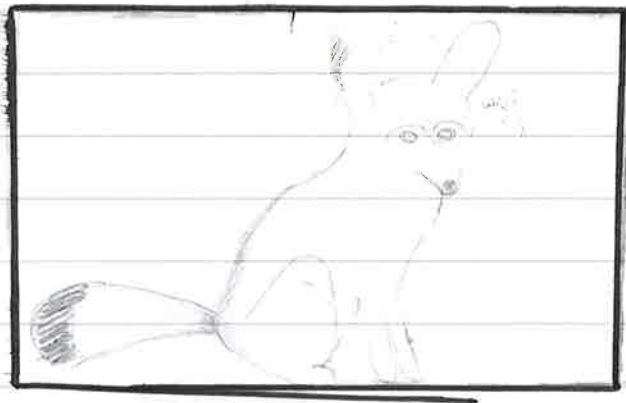

writing by Ladina and Zoë.

English Jahresbericht

In the Unit 1 we learned about live in the desert. We got to know different animals. My favorite animal in the desert is the fennec fox.

Alina

Annual report English Deniz 1

The english lessons are really cool because its super fun. My english teacher Mrs. Ryser is very nice because she helps the children and is very nice to me, but she can be angry at children that do bad stuff in class. I dont really need to learn for english because im really good at english. At the beginning of the english lesson, we describe or talk about the day (Wednesday), what time it is and Mrs. Ryser always asks us if we're well today. My favourite unit was the unit castles and knights.

ANNUAL REPORT OF THE ENGLISH LESSON

At the beginning of the 5th class we had the theme «life in the desert».

We learned words like fennec fox, oasis or sand dunes. It was my favourite topic.

I also liked «the world of music». We learned different words like piano, guitar and violin. Two students from our class brought their instruments to the class and played a little melody. This was very interesting.

Ms Ryser is a very lovely teacher.
We have a lot of fun.
My favourite unit is the 6th,
because in my opinion the universe
is very interesting.
